

Animal Tissue Banking Services

FOR PRODUCT DEVELOPMENT | PRE-CLINICAL TRIALS | R&D

VTS is the world's leading veterinary tissue bank with 20 years experience procuring, processing and testing tissues for implantation. Investing in quality products in the initial project design phase can prevent costly rework in later phases of your project.

WHY OUTSOURCE ALLOGRAFT MATERIALS

CURRENT TISSUE BANK STANDARDS

Custom processed to your needs in our Class-1000 certified clean room

CLINICAL-QUALITY

Clinical-quality implantable grafts backed by established and validated SOPs and other Quality System elements

CONSISTENT

Consistent tissue product characteristics within and across production batches

ON TIME & ON BUDGET

Your project is always our first priority.

GUARANTEED

Our materials are guaranteed to have your desired attributes including sterility, osteoinductivity, specific structural features and more, as needed.

RELIABLE

20 years of professional tissue banking experience leads to great results without costly trial and error.
