SOFT TISSUE & OCULAR GRAFTS

**SHIPPING SHELF LIFE**

Fascia can be used wherever biological patch or barrier material is needed (e.g., dura, pericardium, & hernia repair, GTR).

Reparing partially or fully ruptured tendons (e.g., Common Calcaneal (Achilles) tear/rupture).

**SOFT TISSUE GRAFTS**

Fascia can be used wherever biological patch or barrier material is needed (e.g., dura, pericardium, & hernia repair, GTR).

**Ocular Grafts**

If you wish to be notified whenever a fresh corneal graft becomes available, please let us know.

**FRESH OR FROZEN OCULAR GRAFTS**

**ORTHOPEDIC GRAFTS**

Osteoallograft® Orthomix® - 100% Natural Bone Allograft

Osteoallograft is osteoinductive Demineralized Bone Matrix (DBM) and osteoconductive cancellous chips. Can be used in any species.

**Osteoallograft® Orthomix® - 100% Natural Bone Allograft**

**Orthomix Ultra Fine**

(125 - 710 micron particle size)

| CANINE | 0.5 cc | CBOUFFD1 | $120 |
| 1 cc | CBOUFFD1 | $263 |
| 2 cc | CBOUFFD2 | $138 |
| 5 cc | CBOUFFD5 | $82 |

**Orthomix Fine**

(125 - 2380 micron particle size)

| CANINE | 5 cc | CBOOFFD5 | $120 |
| 1 cc | CBOOFFD1 | $106 |

**Demineralized Bone Matrix (DBM)**

(125 - 1180 micron particle size)

| CANINE | 1 cc | CDOFF1 | $120 |
| 3 cc | CDOFF3 | $263 |

Synergy is an advanced biosynthetic bone graft made of β-TriCalcium Phosphate (β-TCP) and Hydroxyapatite (HA), in a resorbable carrier that withstands irrigation.

**Fortigen™ - Augmented Bone Graft**

Fortigen is a novel version of Orthomix Ultra Fine with engineered surface modifications similar to BMP-2.

**Fusion Xpress™ - Injectable Bone Putty**

Fusion Xpress injectable bone putty is a combination of Orthomix, biphasic β-TriCalcium Phosphate (β-TCP) and Hydroxyapatite (HA) in a resorbable carrier that withstands irrigation.

**Fusion Xpress™ - Pure Synthetic Bone Graft**

Synergy is an advanced biosynthetic bone graft made of β-TriCalcium Phosphate (β-TCP) and Hydroxyapatite (HA), both occurring naturally in bone.

**Synergy™ - Ortho**

Cancellous bone graft, used for:

- Vascular filling / osteotomy sites
- Putty with or without irrigation

**Synergy™ - Ortho**

Calcium phosphate bone graft, used for:

- Vascular filling / osteotomy sites
- Filling & reconstruction of metaphyseal bone defects
- Economically extend autograft or allo graft volumes

**PRICE LIST**

All products manufactured in the USA by Veterinary Transplant Services, Inc.
Osteoallograft® Periomix®

Osteoallograft® Periomix® is osteoinductive and osteoconductive demineralized bone matrix (DBM) and vestibular cancellous chips. Can be used in any species.

### FUSEX™ - Injectable Bone Putty

Fusion Xpress injectable bone putty is a combination of Orthomic, biphasic β-Tricalcium Phosphate (β-TCP) and Hydroxyapatite (HA) in a resorbable carrier that undergoes intergrowth.

### Synergy™ - Pure Synthetic Bone Graft

Synergy is an advanced biosynthetic bone graft made of β-Tricalcium Phosphate (β-TCP) and Hydroxyapatite (HA), both occurring naturally in bone.

### PRICE LIST

- DBM mixed with cancellous chips; used for:
  - Tooth extraction
  - Furcation defects
  - Bone loss
  - Mandibular fractures
  - 5 yr shelf life

- **DBM**: 0.6 x 0.6 x 2.0 cm
- **CR or EB**: $58

- **Presstüt Blocks & Wedges**
  - Demineralized, completely cancellous bone.
  - Natural collagen for an ideal filler and/or carrier matrix.

- **Cancellous Blocks & Dowels**
  - Demineralized cancellous bone for spinal fusion, IOHC, or void filling. Rigid graft can be shaped with saw or reamer.

- **Segments & Struts**
  - Cortical bone graft for intermaxillary implantation to facilitate screwplate fixation and fusion to host bone.

- **Whole Bones, Shaft Sections & Osteochondral Allografts**
  - Full-length dephosphylated bone shafts, sections, and customized osteochondral allografts.

- **Antibiotic Soak Kit**
  - Designed to make it easy to sepsisically load bone graft with antibiotics of your choice.
Osteoallograft® Periomix®
Osteoallograft® Periomix® is osteoinductive Demineralized Bone Matrix (DBM) and osteoconductive.

MEMBRANES (ideal for Orthopedic, Neurosurgical and Dental procedures)

Fascia
- Synergy™
- Wound donor site
- Phone: 1-800-235-5998
- Fax: 1-800-743-2222

Fusion™ - Injectable Bone Putty
Fusion Xpress™ Injectable bone putty is a combination of Orthomix, biphasic β-Tricalcium Phosphate (β-TCP) and Hydrargyrate (HA) in a resorbable carrier that withstands irrigation.

Synergy™ - Pure Synthetic Bone Graft
Synergy™ is an advanced biosynthetic bone graft made of β-Tricalcium Phosphate (β-TCP) and Hydrargyrate (HA), both occurring naturally in bone.

Fusion Xpress™ - Dental
Fusion Xpress™ Injectable bone putty is a combination of Orthomix, biphasic β-Tricalcium Phosphate (β-TCP) and Hydrargyrate (HA) in a resorbable carrier that withstands irrigation.

MOST VTS GRAFTS CAN BE USED IN ALL SPECIES. SEE BACK PAGE FOR MORE DETAILS.

PRESSFIT™ Blocks & Wedges
Demineralized, fully compressible cancellous bone. Natural collagen for an ideal filler and/or carrier matrix.

PRESSFIT™ Blocks & Osteotomy Wedges
Blocks made of dense cancellous bone, used for:
- Spinal fusion
- Bridging gaps
- Void filling

Cancellous Blocks & Dowels
Mineralized cancellous bone for spinal fusion, ICHC, or void filling. Rigid graft can be shaped with saw or rongeur.

Segments & Struts
Cortical Segments
Cortical bone graft for intercalary implantation to facilitate screw/plate fixation and fusion to host bone.

Whole Bone, Shaft Sections & Osteochondral Allografts
Whole bone with bone marrow, shaft sections, and customizable osteochondral allografts.

Antibiotic Soak Kit
Designed to make it easy to aseptically load bone graft with antibiotics of your choice.

Antibiotic Soak Kit
Bone graft can elute antibiotics into a site over time.
- Easy to use kit for exposing bone graft to antibiotics prior to surgery.
- See Reference & How-To Video in the Product Information section at www.vts.com

$35
**SOFT TISSUE & OCULAR GRAFTS**

**Indications:**
- Fascia: Repairs shear damage (e.g., dura, pericardium, & hernia repair, GTR).
- Tendons: Repairing partially or fully ruptured tendons (e.g., Common Calcaneal (Achilles) tear/rupture).

**Ocular Grafts**

**Indications:**
- Fascia:
  - Repairing small wounds
  - Acute fractures (smaller fracture voids)
  - Mal- or non-unions
  - Arthrodesis, implant revisions
  - Use anywhere graft is indicated
  - 5 yr shelf life
  - DBM mixed with cancellous chips used for:
    - Small defects
    - Bone loss cases, filling bone cysts
    - TPDs and TTA
  - Use anywhere graft is indicated
  - See back page for shelf life

**Ocular Grafts**

**Indications:**
- Repairing partially or fully ruptured tendons
  - Flexor/Extensor
  - Flexor superficial
  - Digital flexor
- Achilles Tendon includes flexors proximal & distal to calcaneus without calcaneal bone block

**Freeze-Dried & Frozen**

**Freeze-Dried Only**

**Fresh or Frozen Ocular Grafts**

**Fascia & Tendons**

**Freeze-Dried or Frozen**

**Freeze-Dried Only**

**Fusion Xeres®**

- Injectable Bone Putty
- Fusion Xeres® is a combination of Orthomix, biphasic β-Tricalcium Phosphate (β-TCP) and Hydroxyapatite (HA) in a resorbable carrier that withstands irrigation.

**SHIELD LIFE**

**Fusion Xeres®**

- Can be stored at room temperature for 2 years.

- DBM mixed with cancellous chips used for:
  - Small defects
  - Acute fractures (smaller fracture voids)
  - Mal- or non-unions
  - Arthrodesis, implant revisions
  - Use anywhere graft is indicated
  - 5 yr shelf life

**ORTHOPEPIC GRAFTS**

**Osteoallograft® Orthomix® - 100% Natural Bone Allograft**

**Orthomix Ultra Fine**

| CANINE | Freeze-Dried | $278 |
| FELINE | Freeze-Dried | $278 |

**Orthomix Fine**

| CANINE | Freeze-Dried | $391 |
| FELINE | Freeze-Dried | $391 |

**Fortigen™**

- Augmented Bone Graft
- Fortigen is a novel version of Orthomix Ultra Fine with engineered surface-modifications similar to BMP-2.

**Fusion Xeres**

- Pure Synthetic Bone Graft
- Fusion Xeres is an advanced biosynthetic bone graft made of β-Tricalcium Phosphate (β-TCP) and Hydroxyapatite (HA), both occurring naturally in bone.

**Synergy**

- Pure Synthetic Bone Graft
- Synergy is an advanced biosynthetic bone graft made of β-Tricalcium Phosphate (β-TCP) and Hydroxyapatite (HA), both occurring naturally in bone.
